Blades Groundwater, DE

The shutdown has delayed review and validation of GW data for the Blades Site Investigation. The Blades Site was not a priority for the laboratory and therefore is part of the ongoing backlog. EPA has incurred additional \$12K costs for waste disposal originally scheduled for January 2nd, because

Request priority for data validation; complete contracting actions to dispose of waste.

Potential to delay proposal of the site for inclusion on the National Priority List.

2/15/2019

the contractor could not perform the work and the tanks froze during the shutdown. Blades is planned for NPL proposal for Fall 2019
